# Current Overview – Ph.D. Support

## Ph.D. Support:

- \$40,000/year
- Do an internship during the summer (you should go to make life easier)

## Structures (fully funded; we do not have self-funding):

- 1-2 year fellowship (50% of the admitted students get this)
- 1 year required TA
- 1 year RA guaranteed from my end
- *(1-2) year TA is guaranteed (more work but flexibility on research) but could be RA if you are ok with the funded projects (more restricted topics)*

# Current Overview – Ph.D. Support

## Ideal Case:

- 1 year fellowship
- 1 (2) year TA
- 3 (2) year RA

## Fellowship:

- Decided by the college – the Viterbi engineering college

**TA:** we have more courses needed for TA – **it is always guaranteed**

**RA:** from the advisor – can vary depending on the projects and funding

# Current Overview – Admission Process

**Application due:** Dec 15<sup>th</sup>

**Ph.D. admission committee:** get the first-round results by the first week of Jan 2024 – then send for fellowship and offer decision

**Fellowship and offers:** likely finalized by the middle of Feb – this can go longer until April if this involves TA and RA (we could roll out more offers if some get declined in Feb or March, so it is not a one-shot thing)
